Everything
you need
to know

which tank is safe?

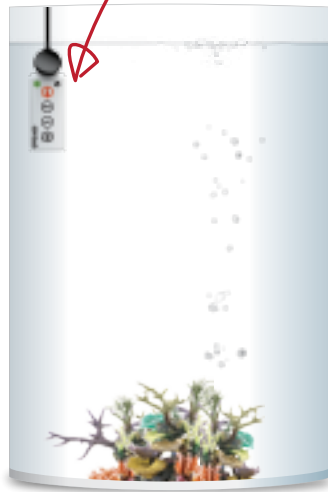

With a seneye you can see the dangers!

Toxic ammonia

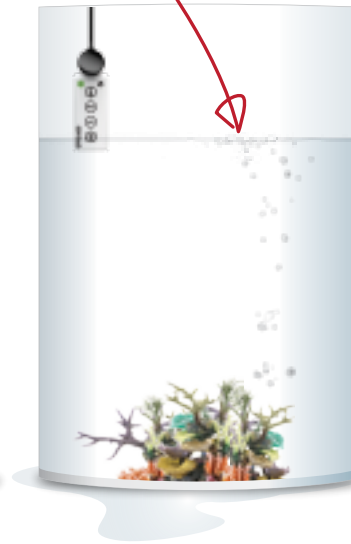

pH problem

Temperature out of range

SAFE

Water leak

Broken lighting

Worried fish...

We monitor your water and alert you

**1 device
monitors 5
parameters**

why seneeye?

Because life is not cheap.

SAVING FISH FROM

- Broken Heaters & Chillers
- Filter Crashes
- New Tank Syndrome
- Sudden pH changes
- Tank or Pond leaks
- Failing or incorrect lights

WHAT IS NH3 (FREE AMMONIA)

A toxic gas and the number 1 killer of captive fish. NH₃ should not be confused with non toxic ammonium NH₄. NH₃ is present in all aquariums where fish are kept as it's part of their urine. Traditional ammonia test kits look at NH₄ and until now people have not been able to look directly at NH₃ in these low levels that are toxic to fish.

checks the water every 30 minutes

seneeye the digital test kit

- Fast
- Simple
- Continuous
- Precise

1500 readings for each of the 5 parameters every month

USB Powered

what seneye does...

All seneye work in fresh and salt water

Great for planted tanks

REEF ADDS

- Light spectrum analyzer
- PAR, LUX & Kelvin light levels

Ideal for beginners

Pond includes float

ALL SENEYE MONITOR

- Temperature in °C & °F
- Water level
- NH₃ Free Ammonia *
- pH *
- Light level %

*requires seneye+ slide

*EVERY SENEYE INCLUDES 1 SENEYE+ SLIDE

seneye+ slide

Monitor Free ammonia, the number 1 killer!

- 1500 NH3 readings
 - 1500 pH readings
 - Alerts for NH3 and PH
 - Each slide lasts 30 days
- All other functions work with out slide

there is no subscription or contract with a seneye.

The disposable seneye+ slide measures pH and NH3 and simply needs replacing each month for accurate and reliable readings.

the seneye, don't just take our word for it

"seneye will become as common a name among enthusiasts as Vortech"
Marine-Engineers.org

"seneye is going to be one of the most highly recommended and bought products after it's launched in a couple of weeks."
ultimatereef.com

"The whole thing seems incredibly good value, well thought out, a truly innovational product"
Practical fish keeper magazine

"sets a new bar for aquarium monitoring"
Reefbuilder.com

CORAL

"Looks like a fantastic product" Coral Magazine

"I can tell a customer that I have it myself, they know they can trust the product more as I wouldn't have it if it wasn't good"
Maidenhead store manager

seneye could be the most important launch of 2011
pfkeditor Jeremy Gay

pbwnews

"this is a cost-effective way to keep constant tabs on any aquarium or pond"
Pet Business World Magazine

"Thanks for the quick reply. Really good customer service from seneye"

I would not be without my seneye reef, great product with a great price

Thank you for excellent information, Brought on Saturday and installed working well. Many thanks

"Thanks for the fast and efficient service!"

"fantastic product"

"Mine saved me after I forgot to plug my heater back in after a water change. Wasn't till hours later in the middle of the night but **it saved my arse**. Love it."

I love my seneye reef and its a great product!!

Thanks again for the quick response. Great product by the way.

now i just need other big players in the marine world to listen to what us as consumers say.

"cool. uploading information now, so I am happy"

"This is a great monitor that will probably be in most peoples equipment lists soon"

...want to keep a close eye on my parameters I feel the price is worth paying. I have found the seneye to be more accurate than my test kit... I am inclined to believe my seneye device over the liquid kit. It also shows my feeding cycle as it picks up the ammonia spikes. I am a sucker for gadgets and details so that is why I got my seneye. If you decide to take the plunge I doubt you will be disappointed with the product and it's detail.
